

ENGINEERING SOLUTION, MECHANICAL & ELECTRICAL CONSTRUCTION

COMPANY PROFILE PT SABATANI GLOBAL SOLUSINDO

Safety & Quality Is Our Priority

INTRODUCTION

PT Sabatani Global Solusindo as PT. SGS is a full service engineering and mechanical & electrical construction at general industry. Product from PT Sabatani Global Solusindo like a reactor tank, pressure vessel, storage tank, heat exchanger, piping system and complete package unit.

Taking advantage of its considerable experience, skilled labour and high technology equipment, PT Sabatani Global Solusindo supplies high quality product and service. This is type of customer PT Sabatani Global Solusindo,

- ◆ Chemical & Petrochemical
- ◆ Pulp and Paper Industry
- ◆ Mining & Ceramic Industry
- ◆ Food & Beverage Industry
- ◆ Pharmaceutical Industry
- ◆ Cosmetic Industry

In the meantime, we would like to assure you of our close attention to your requirement at all time.

Yours very trully,
PT Sabatani Global Solusindo

P. Gunarto, ST
Director

With the best and professional team, we can help you to make equipment more effective with quality material & competitive price.

OUR VISION

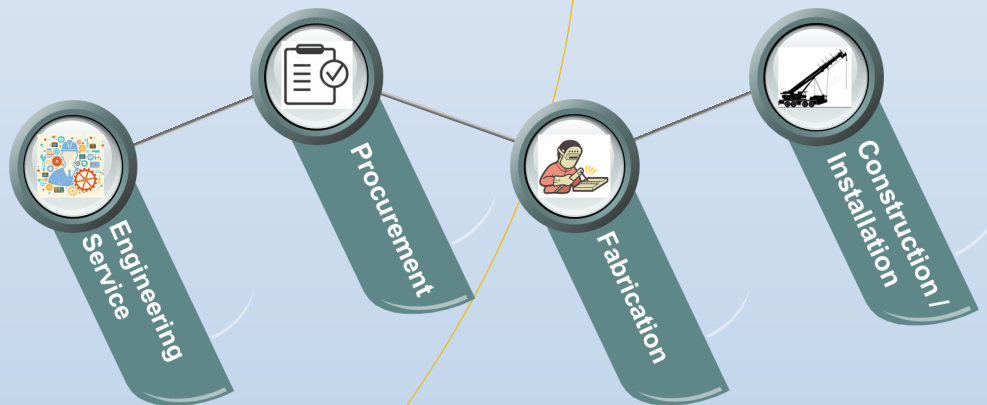

Priority Partner For Innovation and Improvement

OUR MISSION

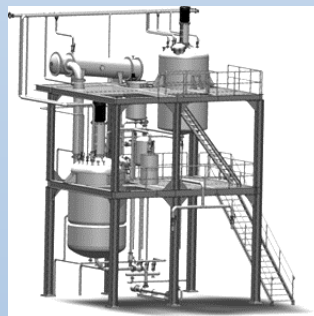

To be The Best in Design and Built with quality

OUR CAPABILITY

ENGINEERING SERVICE

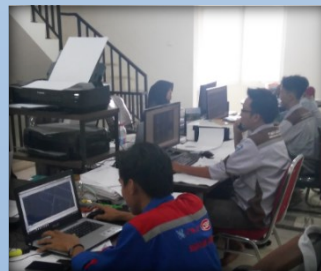

- ◆ Mechanical Calculation
- ◆ Piping & Equipment Layout in 3D
- ◆ Generate Isometric Drawing
- ◆ Provide Bill Of Quantity For Bid
- ◆ Expediting of Execution Project
- ◆ As Built Drawing

**Customer Satisfaction
is Our Priority**

ENGINEERING TEAM

- ◆ Mechanical Engineer
- ◆ Piping Engineer
- ◆ Drafter Engineer
- ◆ Electrical & Instrument Engineer
- ◆ Process Engineer
- ◆ Project Engineer

FABRICATION WORK

PT Sabatani Global Solusindo have a great team to make a best product. We have team with specialized job to provide a product. We have certified welder for produce some product. Safety and quality product is very important for Sabatani product.

PT Sabatani Global Solusindo used a best material for make a product. We used good quality Stainless Steel and Carbon Steel material. Before fabrication material will be inspected by quality control to make sure quality of material.

Stainless steel and carbon steel material have a good quality for make a Sabatani product. For stainless steel we used SUS 304 until SUS 316L and for carbon steel we used SS400 until SA 516 Gr 70. Material grade depending on the needs or demand of the customer.

ADVANTAGES OF HIRING SABATANI SERVICES

- ◆ Professional Engineers
- ◆ Welding Specialist
- ◆ General Contractors
- ◆ Individualized Services
- ◆ Top Fabrication Equipment
- ◆ Sub - Contractor Sources

TURN KEY PROJECT PROCESS PLANT

PT Sabatani Global Solusindo have a customized product. When customer have some special inquiry we can customized as needed.

PT Sabatani Global Solusindo have team to develop new process plant with better efficiency for your company. In addition to plant modification, PT Sabatani Global Solusindo can help you to made new plant to produce something. With experience PT Sabatani Global Solusindo team can help you to get better facility. PT Sabatani Global Solusindo customers are confident hiring our service thanks to our highly competent in-house engineering, and great team on field or management. All this combined with vast experience and dedicated management enables us to accomplish client goals.

PT Sabatani Global Solusindo customers are confident hiring our service thanks to our highly competent in-house engineering, and great team on field or management. All this combined with vast experience and dedicated management enables us to accomplish client goals.

Professional team will be make project always success with safety on the main priority.

Good designer can make a great design and will be increase your productivity

AGITATOR

At general industries mixing process is very important for process production. PT Sabatani Global Solusindo have process engineering specialist in mixing system. PT Sabatani Global Solusindo have know-how and vast experience at mixing system in chemical, food & beverage, petrochemical, flavor & fragrance and other industries.

PT Sabatani Global Solusindo can support design, fabrication until commissioning the agitator. We can support analysis mixing system and reparation for existing agitator.

PT Sabatani Global Solusindo will provide solution on problem in the mixing process customer. With experience and supported by specialist team we can help customers to achieve effective and efficient mixing process.

Professional designer make your process will be better

CONSTRUCTION & INSTALLATION

As EPCF company PT Sabatani Global Solusindo also provide construction and installation service. PT Sabatani Global Solusindo have team for mechanical and electrical installation. For civil work we provide to our partners and we act as project management.

On this technological age there is much need for factory development to add automation on the process equipment to improve the efficiency of the process. PT Sabatani Global Solusindo also provide that improvement. PT Sabatani Global Solusindo supported by team experienced in automation system. PT Sabatani Global Solusindo experienced at many range industry like a chemical until food industries.

PIPING INSTALLATION

Our skilled field personnel have vast experience at general industries and specialized on mechanical and piping construction. PT Sabatani Global Solusindo can provide utility piping until process piping on your plant.

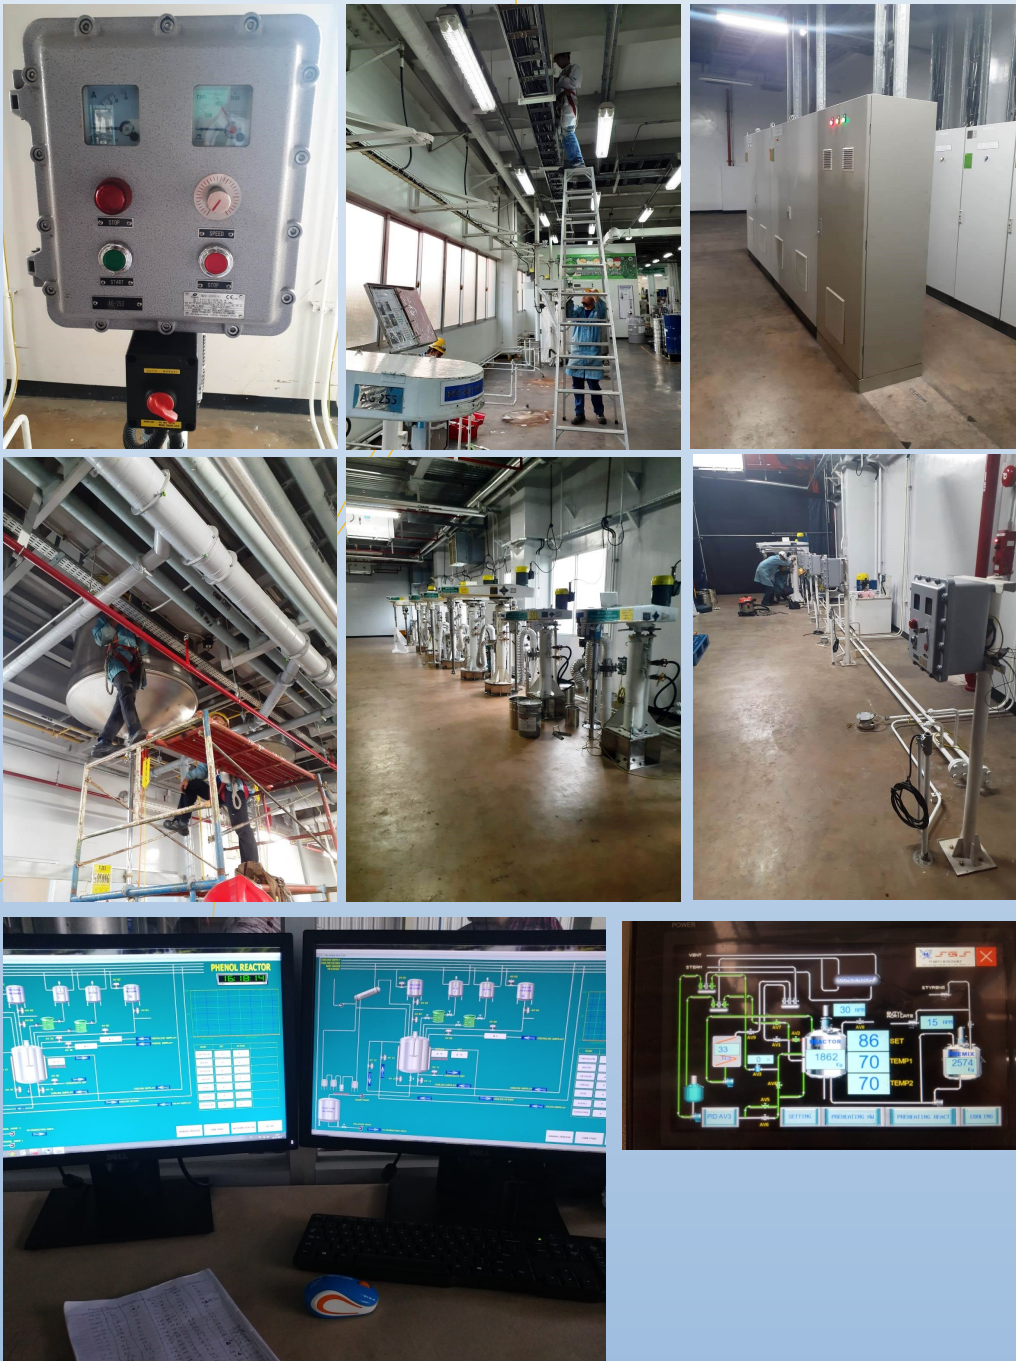

On project, time schedule is very important. PT Sabatani Global Solusindo have a mission for piping project, we can finished on time with the best quality and safety. We ensure the highest level of asset integrity and reliability to our client.

ELECTRICAL INSTALLATION

PT Sabatani Global Solusindo have a skilled field personil with vast experience at many type project. With PT Sabatani Global Solusindo time schedule and project safety is very important.

We have enhanced our culture and practices and dedicate time, resources and leadership to attract, develop and retain exceptional people. We inspire our employees to confidently and continuously share and improve their work experiences. We focus on team work as we believe this is core to Client service and deliverables.

PT sabatani Global Solusindo provide full complete solution of hot / cold insulation services. Material and method selection is very important to get the best insulation and safety in work is our priority.

Our team have experience in working insulation tank until piping. For hot/ cold insulation we used material rockwool, calcium silicate, polyurethane and armaflex. And we can fabricate cover from aluminium or stainless steel.

Our team is vast experienced in different area of project like in general industries. PT Sabatani Global Solusindo used a best equipment and efficient method to ensure that the quality is delivered with minimum cost and on time.

INSULATION WORK

- ♦ Tank & Piping (Hot & Cold)
- ♦ Material:
 - Rockwool
 - Polyurethane
 - Armaflex
 - Calcium Silicate
- ♦ Insulation Cover:
 - Aluminium
 - Stainless Steel

HVAC DESIGN & INSTALLATION

PT sabatani Global Solusindo provide full complete solution engineering process, mechanical, electrical until HVAC system.

Our design and build service HVAC system have been successfully implemented in many environment.

PT Sabatani Global Solusindo developed a reputation within the industry for our complex design. We have partnered with the large refrigeration manufacturers for get update technology.

HYGIENIC TANK & MIXER

PT Sabatani Global Solusindo have a business in all industrial sector, including hygienic industries. PT Sabatani Global Solusindo have experience in design and fabrication with hygienic standard (GMP, 3A and ASME-BPE). Many of our clients in the Food and Pharmaceutical industries specify hygienic fabrications for key elements of their work.

We specialise in this service, with engineers certified accordingly, to deliver crevice free welding and purged welds – sealing both sides of the joints. Professional team will make your project success.
